### Job Details

As one of the largest integrated network of sleep labs in Canada, Accq Sleep Labs is seeking the involvement of a Nurse Practitioner to join our growing company. We provide diagnostic testing, consultation and treatment services to pediatric and adult patients with sleep disorders.

As a nurse practitioner, you will work as part of our inter-professional team to obtain patient histories, review diagnostic test results and develop treatment plans with both adult and pediatric patients. You will participate in case management and continuing care, consult with physicians and other members of the health care team to deliver efficient, effective and high quality care.

This is a full-time opportunity at our Kitchener-Waterloo site. This position will require daytime availability (Monday to Friday) with the occasional weekend. Interest in a part-time position may be considered. All qualified applicants are encouraged to apply.

### Qualifications and Skills

- 1) Registration in the Extended Class with the College of Nurses of Ontario
- 2) Sleep, Pulmonary or Psychiatric experience an asset
- 3) Proven interpersonal, team and communication skills
- 4) Demonstrated commitment to ongoing professional development
- 5) Current B.C.L.S

### Community, Facility and Organization

Our locations offer internationally recognized recreational and arts facilities and some of the most pristine wildlife throughout Southern Ontario. Our locations offer unique opportunities for those who enjoy a smaller but very active community.

In operation for over 12 years, our facilities comprise the largest network of integrated sleep labs in Canada. With the support of state of the art diagnostic equipment, we run high volume operations that focus on quality of care and efficiency. The goal of Accq Sleep Labs has been the formal establishment of a multi-disciplinary facility serving both the adult and pediatric community. Medical specialists include physicians trained in Internal Medicine (Respirology), Psychiatry, Pediatrics with Fellowship in Pediatric Respirology, and Sleep Medicine.
